April 6, 1990

Dear Mr. Weisberg,

My name is Craig Ciccone and I have been deeply fascinated with the assassination of John F. Kennedy for more than a decade. Unfortunately, I have had limited access to other fantastic works including yours. My public library or my university library doesn't have a copy of any of your work.

I got your address from Groden/Livingston's book, High Treason. I don't know what it will take to receive your work, but I will do almost anything to carry on in my studies.

I would appreciate your direction on how to get ahold of any of your work or any other works of consequence in this case.

This case means a lot to me. I am starting to hold lectures in my hometown to spark interest in the public and I need as much help as I can get.

Thank you for your cooperation and all of your contributions.

Faithfully submitted,

Craig Ciccone
